HISTORY OF THE CASE (Z.N.(S.) 1436)

The application was received from Dr. K. H. L. Key on 21 July 1959. It was sent, together with a supplementary note by Mr. R. V. Melville (then Assistant Secretary to the International Commission), to the printer on 29 October 1959 and was published on 16 September 1960 in Bull. zool. Nomencl. 17: 344–345. Public Notice of the possible use by the Commission of its plenary powers in the present case was given in the same part of the Bulletin as well as to the other prescribed serial publications (Bull. zool. Nomencl. 4: 51–56) and to seven entomological serials. The proposals were supported by Dr. D. R. Ragge (British Museum (Natural History), London) and Dr. V. M. Dirsch (Anti-Locust Research Centre, London) and opposed by Dr. E. Raymond Hall (Museum of Natural History, University of Kansas, U.S.A.).
DECISION OF THE COMMISSION

On 3 July 1961 the Members of the Commission were invited to vote under the Three-Month Rule, on Voting Paper (61)20 either for or against the proposals set out in Bull. zool. Nomencl. 17 : 344 and supplemented on page 345. At the close of the prescribed voting period on 3 October 1961 the state of the voting was as follows:

Affirmative Votes—twenty (20), received in the following order: Boschma, Holthuis, Lemche, Munroe, Mayr, Vokes, Obruchev, do Amaral, Key, Hering, Prantl, Hemming, Riley, Uchida, Jaczewski, Tortonese, Brinck, Kühnelt, Bonnet, Alvarado.

Negative Votes—three (3): Mertens, Bradley, Poll.
On Leave of Absence—three (3): Evans, Miller, Stoll.

The following comments were made by Commissioners when returning their votes:

J. Chester Bradley (3.x.61)—"I agree with Dr. Hall. It has not been made clear that the case is of major importance or that confusion would arise if no action is taken. Any taxonomist may list pellarini as a nomen dubium without the Commission officially listing it as such."

M. Poll (4.x.61)—"Je ne vois pas la nécessité de faire appel à la C.Z.N. Ce cas tranché affirmativement créait un dangereux précédent. La C.Z.N. ne doit pas à mon avis supprimer trop rapidement les noms spécifiques d'espèces mal décrites et dont les types sont perdus provisoirement. La C.Z.N. risque si elle s'engage dans cette voie d'être assaillie d'innombrables demandes."

AMENDMENT TO THE PROPOSED VALIDATION OF ENHYDRUS CASTELNAU, 1834, UNDER THE PLENARY POWERS. Z.N.(S.) 398 (see volume 18, pages 137-139)

By W. E. China (Assistant Secretary to the International Commission on Zoological Nomenclature)

In the course of voting on this application, Commissioner Dr. L. B. Holthuis has stated that he believes that the work by Dahl (1823) "Coleoptera und Lepidoptera" is an available publication and has insisted therefore that the work must be suppressed under the plenary powers before it can be placed on the Official Index. In deference to Dr. Holthuis's opinion it has been decided, after some discussion with Mr. J. Balfour-Browne and Dr. Per Brinck, to request the Commission to suppress Dahl's 1823 work under the plenary powers.
